

Features:

- Sensitive FM/AM Radio with Telescopic Antenna
- Built-in Battery Can Be charged by Solar, Dynamo, and USB
- Rugged Rubberized Finish
- Green LED Tuning Indicator and Blue LED Charging Indicator
- Speaker or Earphone Output with Adjustable Volume

Technical Information:

Radio

1. Sensitivity of the FM: Better than 10 μ V
2. Sensitivity of the AM: Better than 1.5 mV/m
3. Reception scope of the FM: 88-108 MHz
4. Reception scope of the AM: 530-1650KHz
5. The audio frequency output power More than 100 mW
6. Radio working time after 1 minute cranking: About 20 minutes
7. Radio working time after 5 hours charging under sunlight: About 30 minutes
8. Max. electricity by solar panel charging 40mA
9. Time to full-charge by solar panel: 20-30 hours
10. Radio working time after being charged fully: About 7 hours

Charging with USB Power

- 1) Input voltage: 5V
- 2) Charging time: About 8 hours

Directions:

1. Cranking for power: Unlock the handle and crank it at the speed of 2.5 to 3 circles per second.
2. Charging with solar power: Put this unit in direct sun and let the sunlight shine on the solar panel. Charging indicator shows that it is charging.
3. Charged by outside power: Insert the 5V USB power source to charge the internal battery. About 6~8 hours for full charge.
4. Reception of radio: Turn the volume knob counter-clockwise to increase the volume. Turn clockwise to decrease the volume.
FM/AM wave band switch : push the switch down for FM, up is AM.

Cautions:

In order to prolong the lifespan of the battery, you should crank it for at least one minute once a month.

Radio Specifications:

Sensitivity of the FM	Better than 10 μ V
Sensitivity of the AM	Better than 1.5 mV/m
Reception scope of the FM	88-108 MHz
Reception scope of the AM	530-1650 KHz
The audio frequency output power	More than 100 mW
Radio working time after 1 minute cranking	About 20 minutes
Radio working time after 5 hrs of solar charging	About 30 minutes
Max. electricity by solar panel charging	40mA
Time to full-charge by solar panel	20-30 hours
Radio working time after being charged fully	About 7 hours
